First, at 5*d.* 3*q.* the Pound, what is the great Hundred? Look in the Table for 5*d.* 3*q.* in the first Column (being the Bottom Line but one) and against it in the second, you shall find 2*l.* 13*s.* 8*d.* and so much will 112 Pounds cost. Again, if a hundred Weight cost 4*l.* 8*s.* 8*d.* find 4*l.* 8*s.* 8*d.* and against it, in the Column towards the left Hand, there you shall find 9*d.* 2*q.* and so much it is by the Pound.

Note, For every Farthing that one Pound doth cost, reckon Two Shillings and Four-pence, and that is the Price of the great Hundred.

EXAMPLES to explain the Use of the foregoing TABLES of VALUATION.

If one pound of tea costs 6s. 7d. 3f. What will 200 pounds come to? Answer, 66l. 9s. 2d.

Look first for the column with 6s. at the top, and then (under the first column of the page) for 200; direct your eye from thence to the opposite sum under the column of 6s. and you will find it 60l. then go backwards to the column which has 7d. at the top, and look for 200 on the column of the page; 200 sevenpences you will find is 5l. 16s. 8d. to this add 200 three farthings, which is 12s. 6d. and the whole amounts to 66l. 9s. 2d. Thus,

200lb. of tea, at 6s. per lb.	—	—	—	60	0	0
200lb. of ditto, at 7d. per lb.	—	—	—	5	16	8
200lb. of ditto, at 3 farthings	—	—	—	0	12	6

E X A M P L E II.

What does 5 cwt. 3 qrs. of tobacco amount to at 10d. $\frac{1}{2}$ per lb.

Look for the column with 10d. at the top, and then for the sum opposite 112, in the first column, which is 14l. 13s. 4d. to this add the 2 farthings, which is 4s. 2d. Multiply these sums by 5, and the product will be the sum of 500. In the same manner proceed afterwards to find the amount of 3 qrs. or 84lb. and the product of the whole will be 28l. 3s. 6d. Thus,

5 cwt. or 112lb. at 10d. 2 f. per lb. will come to	—	—	—	4	18	0
Which multiplied by	—	—	—	—	—	5
The amount of 5 cwt. will be	—	—	—	24	10	0
84lb. or 3qrs. will amount to	—	—	—	3	13	6
The total amount of 5 cwt. 3 qrs.	—	—	—	28	3	6

In 659 farthings, how many shillings are contained?

Look for 200 in the first column of the Table of one farthing, page 124, and observe, that the next opposite sum is 4s. 2d. which, multiplied by 3, makes 12s. 6d. This done, look for the sum opposite to 50; and, at last, to that against 9; all which sums, added, shew, that in 659 farthings are contained 13s. 8d. 3f.

300 farthings make	—	—	—	—	0	6	3	0
Multiplied by	—	—	—	—	—	—	2	—
600 farthings make	—	—	—	—	0	12	6	0
50 farthings	—	—	—	—	0	1	0	2
9 farthings	—	—	—	—	0	0	2	1
659 farthings amount to	—	—	—	—	0	13	8	3

The same explained :

The first numbers shew the number of years purchase the annuity is supposed to be bought at ; and the following figures shew the years and days the annuity must be received, to reimburse the first cost. See the following example.

E X A M P L E.

Supposing that a person gives $12\frac{1}{2}$ years purchase for an annuity, for life, and would know how many years this annuity must be received, to reimburse the charge of buying, supposing that money will yield but 4 per cent. per annum interest.

To resolve this question, you must look in the first row of the figures for $12\frac{1}{2}$ years purchase ; then look for the number upon the line even with the said $12\frac{1}{2}$, it being the answer, viz. 17 years 246 days ; and in 17 years 246 days the buyer must receive the annuity to be reimbursed his principal and interest.

An ACCOUNT of the MONEY of DIFFERENT COUNTRIES.

ENGLISH and FRENCH MONEY.

FORTY-FOUR Guineas and an Half, weigh One Pound of Gold, of which eleven Parts are of Pure Gold, and one of Alloy.

A Guinea contains 118 Grains and 651 Decimals, of pure Gold, without Alloy.

But a Louis D'or only contains 113 Grains 27 Decimals English, of pure Gold, without Alloy.

The Grains of France are to those of England, as 121,78 Decimals to 10.

A New Guinea yields 24 Livres 12 Sols at Paris, with those who purchase in order to melt them down.

An English Crown contains 409 Grains 94 Decimals of pure Silver, without Alloy. The Standard of the Silver Money of France is 261 Grains of Pure Silver with 27 of Alloy; and that of Plate, 274 of pure Silver with 14 of Alloy; but the Standard of English Money is the same as of Plate.

This mode of forming a comparative View of Monies is the most exact, and I wish I could do the same by those of every other Country; but I have not always found it practicable to have Assays made with due Precision: however, a comparison of the Current Monies must not be omitted.

The Pound Sterling is worth about 23 Livres, 7 Sols of France, and sometimes more, according to the course of exchange.

A Guinea of weight, is worth 24 Livres 12 Sols, to those who buy to melt down.

A Shilling is worth 25 Sols.

The Livre Tournois of France is worth Ten-pence Half-penny Sterling.

The Louis D'or is not quite worth a Guinea.

The Bankers and Inn-keepers of Calais readily give Louis D'ors for Guineas; but at Dover they will not give Guineas for Louis d'ors, without a compensation.

T U R I N.

The Pound Sterling is intrinsically worth 20 Livres of Piedmont; but it is rarely that the exchange is not against London, and then it produces only 19 Livres 5 Sols, or 19 Livres 10 Sols, the Pound Sterling.

The Louis D'or is worth 20 Livres 5 Sols.

The Sequin of Florence is worth 9 Livres 10 Sols.

The Gold Pistole of Piedmont is worth 24 Livres. And in Silver, they have Pieces of 6, of 3, and of 1 Livre 10 Sols.

The 4th of July, 1769, the Course of Exchange fell to 18 Livres 14 Sols, a circumstance which had not occurred for ten years past; so that for 200l. sterling, I received but 3740 Livres of Piedmont, the commission deducted. In November 1777, the exchange was at 19 Livres 7 Sols, and 100l. Sterling produced 1935 Livres; but in June 1778, it was at 20 Livres.

G E N O A.

The Pound Sterling is worth 28 Livres of Genoa.

The Sequin of Florence is 13 Livres 10 Sols of Genoa.

The Louis D'or of France is worth 29 Livres 4 Sols of Genoa.

A Piastre, or Spanish Dollar, is current for 6 Livres 10 Sols.

As I would not make mention but of what I have seen, I would be understood to speak only of the monies current in the Years 1769, 70, and 71, and cannot pretend to answer for the changes that may have since happened.

P A R M A.

The Livre of Parma is worth 5 Baiocchi, or Soldi, Sols.

A Paolo is somewhat less than 6 Pence English, 12 Sols of France.

The Sequin of Florence is worth 20 Paoli of Parma, or 44 Livres of Parma.

The Louis D'or of France is current for 97 Livres of Parma, so that it is profitable to carry Louis D'ors to change them for Roman Sequins. In 1777 I had 110 Sequins for 50 Louis D'ors.

M O D E N A.

The Livre of Modena is worth 6 Baiocchi or Soldi.

A Paolo is worth 6 Baiocchi of Rome.

A Roman Scudi or Crown is worth 10 Paoli.

A Roman Sequin is worth 19 Paoli and an Half.

A Sequin of Florence is worth 20 Paoli.

It is proper to observe the difference in Value of the Sequins of Rome, Florence, and Venice, in the different Towns through which the Traveller passes, that he may supply himself with such Money as may be current to the best advantage.

B O L O G N A.

The Livre of Bologna is worth 2 Paoli.

The Roman Sequin is worth 20 Paoli and a Half.

That of Florence is worth only 20.

F L O R E N C E.

The Livre of Florence is worth a Paolo and a Half.

The Sequin of Florence is worth 20 Paoli.

The Sequin of Rome is worth 19 Paoli and a Half.

According to the current Exchange of the 19th of October, 1760, 100l. Sterling, drawn upon London, produced 201 Sequins 18 Paoli of Rome; and on the 18th of November 1777, the same Sum produced 205 Sequins 15 Paoli of Rome.

R O M E.

The Roman Crown is worth 10 Paoli; the Paolo 10 Baiocchi.

The Sequin of Rome is worth 20 Paoli and a Half.

The Sequin of Florence is worth 20 $\frac{1}{2}$ Paoli of exchange; but is current only for 20 Paoli and an Half.

The Sequin of Venice is worth 20 Paoli.

The Onza of Naples is worth 24 Paoli.

There is no exchange at Rome but with Paris and Amsterdam.

The Louis D'or passes for 45 Paoli, sometimes for only 44. The Guineas only pass for 42 or 43 Paoli.

In drawing upon London, the Pound Sterling is worth 42 Paoli.

The first of December, 1768, a Bill of Exchange of 100l. Sterling produced 840 Roman Crowns, without reckoning the Commission; but the 16th of April, 1778, I had 203 $\frac{1}{2}$ new Roman Sequins for 100l. Sterling.

At Rome they keep their Accounts in Scudi (Crowns) and Baiocchi

N A P L E S.

A Carlino is 10 Grains, or $4\frac{1}{2}$ Pence English; a Grain is somewhat less than a Halfpenny.

An Onza is worth 30 Carlini of Naples, or 25 Paoli of Rome 3 Ducats of Naples 7 Onzas are nearly equal to 4l. Sterling

Six Carlini of Naples are worth 5 Paoli of Rome; $4\frac{1}{2}$ Carlini are worth 1 Shilling and 8 Pence Farthing; 5 Onzas are worth 6 Sequins.

One Ducat of Silver is 10 Carlini, 3 Shillings and 9 Pence English.

A Roman Crown passes for $12\frac{1}{2}$ Carlini. A Sequin is worth $25\frac{1}{2}$ Carlini.

One Pound Sterling is worth 52 Carlini, or 2 Sequins and 2 Carlini.

The Exchange with London the 24th of February, 1769, was a Ducat of 10 Carlini for 45 Pence English

M I L A N.

There are two modes of reckoning at Milan; the one, which is called *Bank-Money* (*Moneta di Banco*), which is applied to Bills and Letters of Exchange; the other, which is called *abusivo Currency*, a Name given to all Money employed in making Purchases of any kind whatever. All the Currencies which pass at Milan, are worth more or less according to these two modes of reckoning.

Thirty Livres Bank-Money, are worth 32 Livres *abusivo Currency*.

The Sequin of Florence is worth 14 Livres 10 Sols Bank-Money, and 17 Livres 10 Sols *abusivo Currency*.

The Sequin of Venice, the same.

The Sequin of Rome is worth 14 Livres 4 Sols Bank-Money, and 20 Livres 10 Sols *abusivo Currency*; sometimes 21 Livres.

The gold Pistole of Piedmont is worth 45 Livres of Milan *abusivo Currency*.

G E N E V A.

A Gold Pistole is 10 Livres of Geneva.

A Livre of Geneva is worth 2 pieces of 10 Sols. There is no piece of Money of a Livre value.

The French Crown of 6 Livres, is 3 Livres $12\frac{1}{2}$ Sols of Geneva.

A Livre of France is 12 Sols current Money of Geneva.

A Louis D'or passes for 14 Livres 10 Sols of Geneva.

The Exchange of Geneva with London is from $52\frac{1}{2}$ to 56 Pence English, for 3 Livres current of Geneva.

S W I T Z E R L A N D.

They reckon by Livres or Francs. A Livre is worth 10 Batz, or 30 Sols of France.

The Ducat of gold of Berne is worth 72 Batz, or 10 Livres 16 Sols of France

The Crown of 6 Livres of France is worth 4 Livres of Berne.

Seven Batz and a Half are 22 Sols and a Half of France.

A Batz is 3 Sols; 20 Batz, a Crown.

G E R M A N Y.

All the Princes of the Empire who coin Money, are obliged to conform to the Standard and Title of the Specie established by the Diet to be current in the Empire.

They keep their accounts in Rixdollars, Florins, and Creutzers. The Rixdollar of Vienna is a Florin and a Half; the Florin is worth 60 Creutzers; the Creutzer is equal to 4 Fenins; 3 Creutzers make a Groat. This mode of reckoning is used in all the States of the House of Austria, in Bohemia, Swabia, Franconia, all along the Rhine and the Danube; but they reckon differently at Dresden and Berlin, which will be separately specified.

The Louis D'or is the best Money to travel with in Germany; it passes current for 11 Florins to Augsbuurg; but in the States of the House of Austria it only passes for 9 Florins.

In the Austrian countries, the Gold Money is in Sovereigns and Demisovereigns; of 12 Florins 40 Creutzers, and 6 Florins 20 Creutzers. The Ducat of Holland is worth 4 Florins and 14 Creutzers. The Ducats of Cremnitz, those of Florence, and of Venice, are worth 4 Florins and 14 Creutzers; but the Imperial Ducat, and those of Bavaria and Saltzburg, are worth 4 Florins and 16 Creutzers.

The 16th of May 1770, for 100 Sterling I received 833 Florins, and besides paid 21. Sterling for Commission, &c.

The Money had not quite the Value which I have here specified in the Austrian countries, when I was at Vienna; but the Empress raised it, by an Edict, in the month of March 1771, to the Value here mentioned.

D R E S D E N.

The Ducat of Saxony is worth 2 Crowns 20 Gros, or $4\frac{1}{2}$ Florins.

The Ducat of Cremnitz, the Sequins of Holland and Florence, are current for the same value. The Florin is divided into 16 Gros.

The 20th of March 1771, for 150l. Sterling, which I drew upon London, I received 300 Ducats, of which I paid 6 for Commission.

B E R L I N.

The Ducats of Holland, of Saxony, &c. are worth 3 Crowns;—the Crown is worth 24 Gros;—the Florin passes for 16 Gros; the Gros is current for 12 Fenins. The Louis D'or is worth 5 Crowns: there is an agio upon the Louis D'or. The beginning of April 1771, for 100l. Sterling I received 200 Ducats, of which I paid 8 for Commission, &c. because I had no other Letters of Credit than those of Vienna, and a Commission was due to the Banker of Vienna and the Banker of London.

B R U N S W I C K and H A N O V E R.

The Ducats of Austria, of the Empire, and of Holland, are worth 3 Crowns 16 Gros; the Crown is 24 Gros; the Florin 16 Gros.

C O L O G N E.

A Cordon Ducat of Holland is worth $5\frac{1}{2}$ Florins, or 3 Rixdollars and a half.

The Ducat of the Empire is worth $3\frac{1}{2}$ Rixdollars.

The 26th of April 1771, for 100l. Sterling I had 201 Ducats of Holland, Commission paid.

H O L L A N D.

The Ducat of Holland is worth 5 Florins 5 Sols.

The Florin passes for 20 Sols, and is worth about 1 Shilling and 8 Pence English.

There are silver Florins, and other pieces of 28 Sols, of 6 and of 5 $\frac{1}{2}$ Sols, and Gold Pieces of 7 and of 14 Florins.

The 13th of May 1771, for 100l. Sterling, I received 1070 Florins, upon which the Commission was paid.

The Louis D'or, or the Guinea, turns to the best account at these places.

The PRICE of POST-HORSES in different Countries of Europe.

E N G L A N D.

FOR Two Chaise-horses 9 Pence Sterling per Mile.

For Four Chaise-horses, 15 Pence Sterling per Mile.

For a Saddle-horse, 3 Pence per Mile, except on the Roads from Dover to London, and from London to Bath, where it is 1 Shilling per Mile for two, and 18 Pence per Mile for four, Horses.

Each Postillion is paid 18 Pence or 2 Shillings, and 6 Pence to the Officer*.

F R A N C E.

Every Chaise-horse or Saddle-horse is 25 Sols. The Post-masters and Postillions find the English Post-chaise of such easy conveyance, that they prefer giving three Horses abreast, to allowing four Horses for a four-wheeled or other French Chaise, as I experienced with my English Post-chaise. Dessenin, at Calais, obliges you to pay for four Horses; but he is the only one upon the Road who makes that difficulty. Each Postillion has 15 or 20 Sols per Post.

I T A L Y.

There are two methods of travelling Post in Italy. The usual one is dearer in the States of Lombardy (as in Piedmont, the Milanese, and the Venetian States) than in any other parts of Italy; on account of which in these States they allow Travellers to take Post-horses at a less Price than is established by the ordinary Post, but with some restrictions; as not to oblige the Postillion to gallop his Horse, and not to travel after Sun-set, without paying the full Price of the whole Post: this is called travelling in *cambiatura*, which is easily obtained at setting out from the capital of these States; but if this Permission is wanted on entering the Country, it is proper to procure it beforehand; and a Billet may be had of a Banker from the last Town you set out from.

P I E D M O N T.

It was formerly the custom in Piedmont to travel in *cambiatura*; but it has been since abolished, and the Post Price has been reduced, as follows:

For a four-wheel Chaise drawn by three Horses, 6 Livres.

For a four-wheel Chaise drawn by four Horses, 8 Livres.

For two Chaise-horses, 4 Livres 10 Sols.

For a Saddle-horse, 2 Livres.

A Coach for four places is drawn by four Horses, and pays 9 Livres, and so in proportion for six Horses or more.

They give the Postillions about 30 Sols each.

* These Prices were paid before the late additional Duty on Post-horses.

M O D E N A.

In the States of Modena the ordonnance was formerly 15 Paoli for two Horses, and the cambiatura was readily granted for 10 Paoli; but this ancient rule is now no longer in force, and they pay in travelling Post, 5 Paoli per Chaise-horse and Saddle-horse.

 A Saddle-horse, 4 Livres }
 Formerly they travelled in cambiatura; but this is suppressed, and the Post-price is now reduced.

GENEVA and SWITZERLAND.

There is no Post in Switzerland; Horses are hired from a Carrier, and you make the best agreement with him that you can. To go from Geneva to Basle with three pair of Chaise-horses and one Saddle-horse, I gave 15 Louis D'ors; 8 Louis D'ors to Berne, and 7 to Basle.

SAVOY.

S A V O Y

There is a Post in Savoy, but it is seldom made use of: the nature of the Roads not permitting Post-horses to travel faster than the Carriers horses, excepting for two-wheel and other light carriages. It is better to agree with the Carriers.

G E R M A N Y.

The Posts are well regulated for the price in Germany; a Florin per Post for each Horse, except in the Austrian States, where it is only $\frac{1}{2}$ Florin.

H O L L A N D.

You travel Post to Breda; there you find no more Post-horses; and take Horses of the Carrier. I gave 36 Florins from Breda to Gorcum for seven Horses, and $3\frac{1}{2}$ Florins per Horse from Gorcum to Utrecht; the rest in proportion.

In Holland they travel very much by water.

F L A N D E R S.

In the States of France, the Post is regulated as in France.

In the Austrian States, they pay $\frac{1}{2}$ German Florin per Post for each Horse.

P A S S A G E of M O U N T C E N I S.

From Turin to Geneva I gave, in 1770, 23 Louis D'ors for a Chaise after the English fashion with four Horses, a two-wheel Chaise with two Horses, a Saddle-horse, Chaise Carriers for the Mountain, and as far as Modena; subsistence for two Masters upon the Road, and the Carriage of the Chaise and the Baggage to the other side of Mount Cenis upon Mules.

In 1761, I gave only 20 Louis D'ors for the same journey, upon the same condition.

In 1777, a Coach with six Horses, a Chaise with three Horses, four Saddle-horses, subsistence for three Masters, conveyance of Equipage to Mount Cenis, &c. &c. cost 70 Louis D'ors.

NECESSARY OBSERVATIONS.

Letters are to be put into the Box of the General Post-Office before the Time hereafter specified, otherwise their departure must be delayed till the next Post-day; and you are to take Notice, that the Letters which are put into any of the other Receiving-houses that have been established in other places of Paris, are collected exactly three times in the Day; namely, at Eight o'clock in the Morning, Twelve o'clock at Noon, and Seven o'clock at Night. During the Time the French King and Court continue at Compeigne and Fontainebleau, they are taken away an Hour before the Times aforesaid; consequently all those which are to be forwarded, either at Ten o'clock or Twelve, should be put into the Boxes of the other Receiving-offices in Town before Eight o'clock in the Morning. The Letters which are to be dispatched at Two in the Afternoon, must be in the Box before Twelve; and those destined for Court, before the time of their being lastly taken; but if it is too late, you are to send them to the Office

of the General Post, Rue Platiere; otherwise their departure must be delayed till next Post.

No person is allowed to include Pieces either of Gold or Silver in a Letter: there is an Office at the General Post-house, wherein any Sum of Money intended to be sent into any of the Provinces of France, may be received and accounted for.

There is also an Office to receive all Parcels containing valuable Effects.

For all Letters for the French Colonies in America, and parts of the East or West Indies, the Postage must be paid as far as the Sea-port Town where they are shipped off, otherwise they are not forwarded.

It is proper to pay the Postage of Letters that are sent either to Majors of Regiments, Parsons or Curates, Attornies, Doctors, and other public Persons; because they very commonly refuse to take them in, if the Postage is not paid.

Those whose Letters are directed to some Villages or Country-seats which are not known, are desired to write down at the bottom the Name of the nearest Town to that particular Place.

As several Towns are known to have the same Name, the Public are desired to be very careful how to distinguish in the Supercription which Town is meant, and in what Province it is situated.

As for Letters which are directed either to Soldiers, or other Persons belonging to an Army, both the Name of the Regiment and of the Company is to be mentioned.

All the Letters whose Postage must be paid, are to be sent directly to the General Post-office, in Platiere-street; the others may be put into any of the Boxes, which have been established in various Parts of the Town.

There is another Post-office for Letters in Paris, which has been established on the same Plan as our Penny-post-office. This institution is already so well known, that it would be needless to explain its utility. The Price of the Postage of a single Letter, Card, Note, or Parcel, not exceeding the weight of 4 Ounces, is 2 Sous; but if sent beyond the Bars, Parisius, or Suburbs of Paris, they tax one Penny above.

The chief Post-office for this department is at the Place du Chevalier du Guet.

GENERAL HINTS to STRANGERS who TRAVEL in FRANCE.

IF you travel Post, when you approach the Town or Bourg where you intend to lie, ask the Post-boy which Horse he recommends as the best, and never go to that, if there is any other. Be previously informed what other Inns there are in the same Place. If you go according to the Post-boy's recommendation, the Aubergiste gives him two or three Livres, which he makes you pay the next Morning.

If you take your own Horses, they must be provided with Head-pieces and Halters; the French stables never furnish any such things; and your Servant must take care that the Gargon d'Ecurie does not buckle them so tight, that the Horses cannot take a full bite, this being a common practice, to save Hay.

If the Gargon d'Ecurie does not bring the Halters properly rolled up, when he puts your Horses to, he ought to have nothing given him, because they are so constantly accustomed to do it, that they cannot forget it, but in hopes you may too.

Direct your Servant not only to see your Horses watered and corn given them, but to stand by while they eat it : this is often necessary in England, and always in France.

If you eat at the table d'hôte, the price is fixed, and you cannot be imposed upon. If you eat in your own Chamber, and order your own Dinner and Supper, it is as necessary to make a previous bargain with your Host for it, as it would be to bargain with an itinerant Jew for a Gold Watch.

Be careful that your Sheets are well aired, otherwise you will find them not only damp, but perfectly wet.

Young men who travel into France, with a view of gaining the Language, should always eat at the table d'hôte.

It is necessary to carry your own Pillows with you : in some Inns they have them ; but in Villages, Bourgs, &c. none are to be had.

In the Wine Provinces, at all the table d'hôtes, they always provide the common Wine, as we do Small Beer. Wine is never paid for separately, unless it is of a quality above the vin du Pais ; and when you call for better, know the price before you drink it.

When fine cambrick Handkerchiefs, &c. are given to be washed, take care they are not trimmed round two inches narrower, to make borders to Madame la Blanchisseuse's night-caps.

Whenever you want honest information, get it from a French Officer, or a Priest, provided they are on the wrong side of Forty ; but, in general, avoid all intimacy with either on the right side of Thirty.

When you propose to stay any time, be very cautious with whom you make an acquaintance, as there are always a number of officious forward Frenchmen and English adventurers ready to offer you their services, from whom you will find it very difficult to disengage yourself, after you have found more agreeable company.

Wherever there is any Cabinet of Curiosities, Medals, Pictures, &c. to be seen, never make any scruple to send a Card, desiring permission to view them ; the request is flattering to a Frenchman, and you will never be refused.

Take it as a maxim, that whenever you are invited to a Supper at Paris, Lyons, or any of the great Cities, where a little trifling Play commences before Supper, great play is intended after Supper ; and that you are the marked pigeon to be plucked.

You cannot dine, or visit after Dinner in an undress Frock, or without a Bag to your Hair ; the Hair en Queue, or a little Cape to your Coat, would be considered an unpardonable liberty.

In France it is not customary to drink to persons at table, nor to drink Wine after Dinner : when the Dessert is taken away, so is the Wine.

It is wrong to be led into any kind of conversation, but what is absolutely necessary, with the common, or indeed the middling class of people in France. They never fail availing themselves of the least condescension in a stranger, to ask a number of impertinent questions, and to conclude, if you answer them civilly, that they are your equals.

No Gentleman, Priest, or Servant, Male or Female, ever gives any notice by knocking, before they enter the Bed-chamber, or Apartments of Ladies or Gentlemen. The Post-man opens it, to bring your Letters; the Capuchin, to ask Alms; and the Gentleman, to make his Visit. There is no privacy, but by securing your Door by a Key or a Bolt.

Never ask a Frenchman his age; no question whatever can be more offensive to him, nor will he ever give you a direct, though he may a civil answer.

When you make an agreement with an Aubergiste, where you intend to lie, take care to include Beds, Rooms, &c. or he will charge separately for these articles.

In frontier or garrison Towns where they have a right to examine your Baggage, a twenty-sols piece, and assuring the Officer that you are a Gentleman, and not a Merchant, will carry you through without delay.

Those who travel post should, before they set out, put up Money in parcels for the number of Horses they use for one Post, two Posts, and a Post et demi, adding to each parcel that which is intended to be given to the Driver or Drivers, who are entitled, by the King's ordinance, to five Sols a Post; and if they behave ill, they should be given no more; when they are civil, ten or twelve Sols a Post is sufficient. If these packets are not prepared and properly marked, the traveller, especially if he is not well acquainted with the Money, cannot count it out while the horses are changing, from the number of Beggars which surround the Carriage, and who will take no denial.

Always carry a Machine to secure the Bed-chamber doors at Inns where you sleep, and see that there are no Holes behind large Pictures in the Room, large enough for a Man to creep through.

Valetudinarians, or men of a certain age, who travel into the Southern parts of France, Spain, or Italy, should never omit to wear either a callico or fine flannel Waistcoat under their Shirts: strange as it may seem to say so, this precaution is more necessary in the South of France, than in England.

The King's health is never drank in France, nor is it deemed polite for a Stranger to drink it. To Frenchmen it is very unusual, or rather wrong, to drink the Health of any Person, Male or Female; yet if a Stranger drinks to a Frenchman at table, he will return the compliment.

Using a water-glass at table, as it is practised with us, would give great offence in France.

He who draws his Sword, or gives a Blow in any Royal Palace or Gardens, whether Native or Stranger, is imprisoned Twenty-one Years! It is necessary always to wear a Sword or Couteau de Châss in France.

By adding one Cypher to any Number, you may increase the Value thereof 10 times; by adding two, 100 times; by adding three, 1000 times; by adding four, 10000 times, &c. As for example; if you add a Cypher to 48, which is the Number of Farthings that are in One shilling, you may know thereby the Farthings that are in Ten Shillings; if you add two Cyphers to 48, you may know the Farthings which are in 100 Shillings, &c.

How

How to write a new and easy Short-Hand.

AS Persons in Business have frequent occasions to make Memorandums, write Letters, &c. the teaching them a plain, yet expeditious Short-hand, will certainly be of great use: Let them observe the following Directions for doing this, only by the Letters of the Alphabet, without using any other mark or character; for, by a multiplicity of marks or characters, many are so puzzled, that they often either do not try to learn, or give over, after many fruitless attempts.

The method proposed is this: If a Word has but one Syllable, to write the first and last Letter for the Word; and sometimes the two last Letters, to distinguish it from some other Word: if more than one Syllable, to write the first Letter of every Syllable; and, of the last Syllable, the first and last Letter.

Note, Names of Places, and surnames of Persons, should be written at Length, to prevent Mistakes; but Numbers, Sums of Money, Weights and Measures, may be abbreviated the usual way.

The following Abbreviations will serve as an explanation:

te <i>the</i>	wht <i>without</i>	whh <i>which</i>	tf <i>thief</i>
tu <i>thou</i>	oht <i>ought</i>	shd <i>should</i>	lf <i>leaf</i>
tt <i>that</i>	noht <i>nought</i>	wd <i>would</i>	gdn <i>garden</i>
wt <i>what</i>	cmd <i>command</i>	cd <i>could</i>	fd <i>field</i>
tn <i>than</i>	cmdmt <i>command-</i>	wre <i>where</i>	fid <i>food</i>
wn <i>when</i>	ment	wrefc <i>wherefore</i>	cvtn <i>conversation</i>
hw <i>how</i>	gd <i>good</i>	tre <i>there</i>	rfmtn <i>reformation</i>
nw <i>now</i>	gdns <i>goodness</i>	trefe <i>therefore</i>	plre <i>pleasure</i>
ad <i>and</i>	bd <i>bad</i>	nvtls <i>nevertheless</i>	hppns <i>happiness</i>
fr <i>for</i>	bdns <i>badness</i>	wh <i>with</i>	cft <i>comfort</i>
fm <i>from</i>	gf <i>grief</i>	whn <i>within</i>	dlht <i>delight, &c.</i>
ws <i>was</i>	bf <i>brief</i>		

Note, When the first Syllable ends with a y, and the next begins with a Vowel, then take the first and last Letter of the first Syllable, and only the last Letter of the other Syllable, viz. *pyk*, *physick*; *cyg*, *crying*; *tyg*, *trying*, &c. Words of only two Letters are best written at length.

The Example which follows, will enable you the better to understand this method of Short-hand

“Accustom yourself, O Telemachus! not to expect, even from the greatest Men, any more than what human Nature is capable to perform. Unexperienced youth gives way to a presumptuous humour of censuring and criticising, which gives it a disgust for all the Models it ought to imitate; and throws it, at last, into an incurable indolence.”

Telemachus, vol. ii. page 13.

The same in this new Short-hand.

“Acftm yllf, O Telemachus! nt to epect, evn fm te gftt mn, ay mre tn wt hmn ntre is cpble to pfm Uepped yth gves wy to a pftous hmr of cfrng ad ctczng, whh gves it a dgst fr al te mdls it oht to imtte; ad thws it, at lft, ito an icrble idclty.”

Telemachus, vol. ii. page 13.

This Method of Short-hand you may easily learn in two or three Hours; and, when you are perfect in it, may be able to take down Trials, Orations, &c.

Abstracts of the last Act of Parliament, respecting the Stamp-Duty on Inland Bills of Exchange, Promissory Notes, &c. with the Laws and Form of Notes under Five Pounds.

THE Legislature having thought it necessary to pass into a Law, an Act to charge a Duty upon all Inland Bills of Exchange, Promissory Notes, or other Notes, payable otherwise than on Demand, according to the Value of the same, as therein specified; the Utility of making the same as public and as general as possible, must be obvious to every Man concerned in Business or Commerce.

The whole Trading Part of this Kingdom, as well as private Persons, are interested in this Duty; therefore it is incumbent upon every one, not only to be fully acquainted with the Tenor of the Act, but likewise to be in Possession of the Heads of each Clause, which may at all Times be immediately referred to, that they may not err through Ignorance or Inattention; it being well known, from the usual Channel of Intelligence which is conveyed to the extensive Public, concerning all Acts of the Legislature, that many Thousands may offend against Statutes, which they do not know to be existing.

The Safety of Individuals is more particularly consulted in this Publication, as those who receive Bills or Notes in the settling of Accounts, drawn at a distant Period, &c. may by Inadvertency endanger their Property; for no Bills, Notes, &c. will now be deemed valid, unless they are drawn upon Parchment, Vellum, or Paper, stamped, in Conformity to the Directions in the Abstracts following:

Abstract of an Act, 22 Geo. III. for charging a STAMP DUTY upon all Inland Bills of Exchange, Promissory or other Notes, payable otherwise than upon Demand, which enacts,

- " That from the First Day of August, 1782, for every Inland Bill of Exchange,*
- " Promissory Note, or other Note, payable otherwise than on Demand, where*
- " the Sum expressed does not amount to Fifty Pounds, a Duty of Three-pence*
- " is charged upon every such Bill, or Note."*
- " And for any Inland Bill of Exchange, Promissory Note, &c. in the same manner as the before mentioned, drawn for any Sum amounting to Fifty Pounds,*
- " or upwards, a Duty of Six Pence is charged upon every such Bill, &c."*

These Duties to be under the Management of the Commissioners of the Stamp-Duties.

All such Bills and Notes as above, not properly stamped, to be deemed invalid, and not recoverable in any Court of Law.

Any Quantity of Stamps to be had at the Stamp-Office, the Parties wanting the same carrying the Paper, and first paying the Duty.

The Provisions, Penalties, &c. prescribed or inflicted by former Acts relating to Stamp-Duties, are to be in Force in Execution of this Act.

Persons sued in Execution of this Act may plead the general Issue, and treble Costs will be awarded against the Plaintiff.

Some useful Maxims and Observations in Law, extracted from several eminent Authors.

1. **A** Remedy by action, is either expressly or implicitly given by every statute, made against an injury done; and besides such an action upon the statute, the offender may be fined for contempt to the King.
2. Where one hath several remedies, he may use which he will.
3. Where an offence prohibited by a Penal Statute, be also an offence at Common Law, the prosecution of it as an offence at Common Law, is not restrained; but
4. Common Law must give place to a statute where they thwart; and
5. An old Statute must give place to a new, where they are contrary: but
6. An affirmative Act shall not repeal a precedent affirmative Act, or the Common Law.
7. Acts of Parliament against the power of subsequent Parliaments, bind not.

8. Where

8. Where no Penalty is imposed for disobedience to any Statute, an offence against it is indictable as a contempt of the Law, and the Offender may be fined and imprisoned at the King's suit: for

9. The Law has a delight in giving of remedy; and

10. The Law has provided a remedy for every wrong.

11. Want of right, and want of remedy, is all one; for where there is no remedy, there is no right.

12. No Costs shall be given to an Informer, unless it is expressly directed by the Statute, but his Costs shall be paid out of the forfeiture.

13. The agreement of parties cannot make that good, which the Law makes void

14. No Law can be abrogated but by Act of Parliament.

15. Where a Statute says that a Person shall forfeit, (without saying to whom) he that is grieved shall have the action and forfeiture, not the King. But where no particular Person is grieved, and the forfeiture is given generally, the King shall have it

16. The prosecution and execution of any Penal Statute, cannot be transferred to any Subject; nor can the forfeiture be transferred to any other before it is recovered, or vested in the King, by due course of Law.

17. Where a Statute appoints a conviction to be on the oath of one Witness, this ought not to be by the single Oath of the Informer; for if the same Person were allowed to be the Informer and Witness, it would induce Persons to commit Perjury, for the sake of the Reward.

18. The ignorance of the Law cannot excuse; for

19 To an Act of Parliament, every Man in judgment of Law is a party.

20 Acts of Parliament relate to the first Day of the Session of Parliament in which they were made, if it is not otherwise provided by the Act.

21. The Judges ought to take notice of Statutes which concern the King and Queen.

22. The Judges will take notice of general or public Acts, though they are not pleaded, but not of particular or private Acts without pleading. *ee 4 Rep. 76 a Roll Abr. 465, 466.*

23. The exposition of Acts of Parliament belongs to the Judges of the Common Law, though they concern things of a spiritual nature.

24. The Title of the Act is no part of the Act.

25. The preamble or rehearsal of a Statute is to be taken for truth; therefore good Arguments and Proofs may be drawn from the Preamble or Rehearsal.

26. The words of an Act of Parliament must be taken in a lawful sense.

27. A Sentence which begins and ends with specifying Persons and Things of an inferior rank, ought not to be extended by general words to those that are superior; as by these general words, (*viz.*) *and no other Person or Act whatsoever, &c.* shall not include superior Persons or things that were not particularly expressed. (*See e contra 2 Inst. 137, 627*)

28. Penal Statutes shall not be extended by equity, and must be interpreted by reasonable constructions, according to the meaning of the Legislators.

29. It is natural to construe one part of a Statute by another.

30. They may be construed according to equity, especially where they give remedy for wrong, or are for expedition of Justice, or to prevent delay; for law-makers cannot comprehend all cases

31. Things out of the words shall not be taken by equity.

32. Things for necessity's sake, or to prevent a failure of Justice, are excepted out of a Statute.

33. General words of an Act shall not take away necessary incidents.
 34. A Penal Statute ought to be construed strictly; but it may be construed beneficially; for
 35. What is out of the mischief, is out of the meaning of a Law, though it is within the letter.
 36. And on the contrary, what is within the same mischief, shall be within the same remedy, though it be out of the Letter of the Law.
 37. The construction of a Statute must be in suppression of a mischief, and in advancement of the remedy.
 38. It must be construed so that no innocent Man may, by a literal construction, receive damage.
 39. Statutes made to prevent and suppress Frauds, ought to have a favourable interpretation.
 40. Acts of Parliament that are against reason, or impossible to be performed, shall be judged void.
 41. The surest construction is by reason of the Common Law.
 42. The Reason of the Law is the Life of the Law.
 43. General words will not always be allowed to transfer a right.
 44. Custom or Usage is a good interpreter of a Law.
 45. A *saving*, which is repugnant to the Body of the Act, is void.
 46. When an Act makes any thing good against a Person in certain, it shall not take away the right of another though there is no *saving*.
 47. By repealing of a repealing Statute, the first is revived.
 48. By reviving an Act repealed, the Act of repeal is of no force.
 49. An Act of Parliament cannot be antiquated by *non usor*.
 50. He that reciteth a Statute in pleading, is not bound to recite the very Words, so long as he keeps to the substance. And yet it is the safest way to recite the very words.
 51. Where degrees of punishment are inflicted by a statute, for the first, second, or third Offence, there must be several Convictions and Judgments.
 52. If any shall be sued on the Penal Law in the King's Bench, Common Pleas, or Exchequer, he may appear by Attorney, without Bail, if such Person isailable by Law. 29 Eliz. cap. v
 53. The Statutes of jeofails, or the Statutes that do remedy oversights in pleading, extend not to penal prosecutions.
 54. For the true interpretation of Statutes, four things are to be observed and considered. 1. What the Common Law was before the making of the Statute. 2. What was the mischief or defect not provided for by the Common Law. 3. What remedy the Statute has appointed to cure the mischief or defect. 4. The true reason of the remedy
 55. In all Cases where Justices may take Examinations, or other Accusation or Proof, though the Statute doth not expressly set down that it shall be upon Oath. Dalt. c. 115.
 56. Where a Statute directs the doing of a thing for the sake of justice, or the public good; the word *may* is the same as the word *shall*. 2 Salk. 609
 57. Where a Statute gives power to the Justices of the Peace, to hear and determine an offence in a summary way; it is necessarily implied and supposed, as a part of natural justice, that the Party may be first cited, and have opportunity to be heard and answer for himself. 1 Hawk. P. C. 154.
 58. Where a Statute directs that the Justices shall commit an offender to prison for 12 Months, they may not commit him for a Year; for *in favour of Liberty*, the Months must be computed at 28 Days to the Month, and not as Calendar Months, unless it be so expressed in the Act.
